

About SGS Sports Inc.

SGS Sports is a Canadian licensee of Body Glove products that specializes in ladies swimwear and junior's apparel.

Solution

SGS Sports partnered with Strophe to implement Microsoft® Dynamics™ GP, which gives them the increased reporting and analysis capabilities they need to handle their customers worldwide. SGS Sports also uses the Checkstub Lookup, an add-on developed by Strophe, to easily and quickly drill down to every payment detail such as the amount of a cheque, the date it was cleared, etc.

Benefits

- Productivity gain
- Less frustration searching for information
- Improved relationships with suppliers
- Better audit trails

"I love the Checkstub Lookup add-on that Strophe developed for Microsoft Dynamics GP. It is much easier for the Accounts Payable department to find returns and credit payment details. It is also great for audit purposes."

Elisa Gurreri, Comptroller

Business needs

SGS Sports has been using Microsoft Dynamics GP with great satisfaction for about ten years. With customers throughout North America, Europe, and China, SGS Sports initially selected Microsoft Dynamics GP because of its robust multicurrency support and ability to drill down from summary information to the corresponding details. Microsoft Gold Certified Partner Strophe performed the implementation at the time, and SGS Sports has been a loyal client of Strophe ever since.

While SGS Sports was happy with Microsoft Dynamics GP, finding payment details had proven to be time consuming, especially in the case of multiple credit notes.

Solution

Checkstub Lookup is a Microsoft Dynamics GP add-on developed by Strophe that allows users to easily drill down to every payment detail. All of the information is accessible upfront like on a check stub: the amount of the cheque, if the cheque is still outstanding or if it has been cleared, etc. There is also the option to keep notes that everybody can see.

Benefits

It saves a lot of time for those working in the Accounts Payable Department. For example, when an invoice is on hold, it is possible to leave a note explaining the reason, making it easier to remember why you did something.

Checkstub Lookup has also helped SGS Sports maintain a very good relationship with suppliers, because whenever they ask if a credit note was applied, they get the answer right away.

About Strophe

Having worked with Strophe for several years, Ms. Gurreri, is used to their reliability and responsiveness. She knows that whenever she sends an email, she typically obtains a response within 30 minutes or less.

Ms. Gurreri also really enjoys Strophe's monthly newsletter because it keeps her abreast of the latest updates, and gives her ideas on how to best use what SGS Sports already has. That is how she found out about the Checkstub Lookup. Now that they have been using it for about a year, they wonder how they could live without it.

Strophe is proud to contribute to the success of SGS Sports.
